Fast, Easy IEPs

That is the revolutionary essence of ClearTrack 200, a fully Web-based special education student management software program developed by Broome-Tioga BOCES in cooperation with the New York State Education Department/VESID.

Cost-effective sharing of services is the hallmark of the statewide BOCES network, and it is the cornerstone of the ClearTrack 200 package.

More than 300 school districts across the state have long relied on Broome-Tioga BOCES for special education management, and their taxpayers are glad they do.

The most user-friendly, flexible and intuitive IEP program available.

“The features and functionality provided within the application for districts managing their special education student information are easy to use and learn...and now the Web-based application provides excellent accessibility. (BOCES) training sessions are extremely helpful. Thank you for providing the great (timely) support...”

*Dr. Bruce Longo, Director,
Communication & Technology Services
Monroe2-Orleans BOCES*

“Our teachers have worked on the Web pilot and have been very successful with it. The BOCES staff has been very helpful...We are very happy to be using the system and know it will help to streamline many of our procedures in the future.”

*Cathy Dopko-Link
Harpurville Central Schools
Special Education Department*

ClearTrack 200...the clear difference

- Helps teachers meet the IEP requirements of Chapter 408 and No Child Left Behind Legislation with online tools. Puts information gathering back into the hands of the experts who know the students.
- Track complete student history and compare historical data on a single screen. It's all there at your fingertips.
- Enjoy easy, intuitive data entry and retrieval. Next to having someone else do it, it doesn't get any easier than with ClearTrack 200.
- Transfer data between various student management systems. ClearTrack 200 offers one-stop shopping when it comes to integrating with statewide management databases.

- Develop customized, state-compliant IEPs quickly and with more ease than you ever thought possible. Users can update student information directly from the IEP.
- Unleash the power of a total Web-based solution. No longer are you anchored to the desktop computer at your office. Log onto ClearTrack200, anytime, anywhere.
- Control access with state-of-the-art security and SSL data encryption. Fine-tune user access to components, individual screens or a single document. There are no limits to your ability to ensure confidentiality.
- New customizable standards-based goal banks, aligned with NYS learning standards, are a click away. No more thick, photocopied indexes or bar code wands.
- Electronically submit STAC and state-mandated PD reports with ease and accuracy.

...the clear leader.
